PUBLISHING OPEN DATA IN TANZANIA

Rose Aiko

LEARNING OUTCOME

- By the end of the session you should be able to
    - List agencies/sectors currently publishing data on the open data portal
    - Describe current practice(s) on publication of open data
    - Create a plan of action for publishing local government open data

QUESTION 1

- Where can you expect to find open government data in Tanzania?

QUESTION 2

- Which agencies currently publish data on open government portal?

CURRENT PROCEDURE

- A few sectors (lead ministries and agencies) approved for data to appear on open data portal
  - Health, education, water and socioeconomic data produced by NBS

- Current data release to open data portal based on a pre-approved OGP list (transport, agriculture new additions in OGP AP III)

- Other ministries and departments can still publish data on own websites (no express limitation by government).

 - Open budget, Land transparency, Extractive Sector transparency, + Medical Health Transparency

EXPLORE EXAMPLE GOVERNMENT DATA PORTALS

- http://www.tamisemi.go.tz (hint: go to LGA Information)

- http://tra.go.tz (hint: go to Library)

- http://hfr-portal.ucchosting.co.tz

- www.opendata.go.tz

RECAP

- What did we learn?

PUBLISHING OPEN DATA IN TANZANIA 2

YOUR ACTION PLAN TO PUBLISH OPEN DATA

- What data do you produce? Which ones are you publishing? Which other data can you (not) publish?

- Where do you publish? Where else would you publish?

- Is the data open?

- If not open, what would you do to make the data open?

END
